

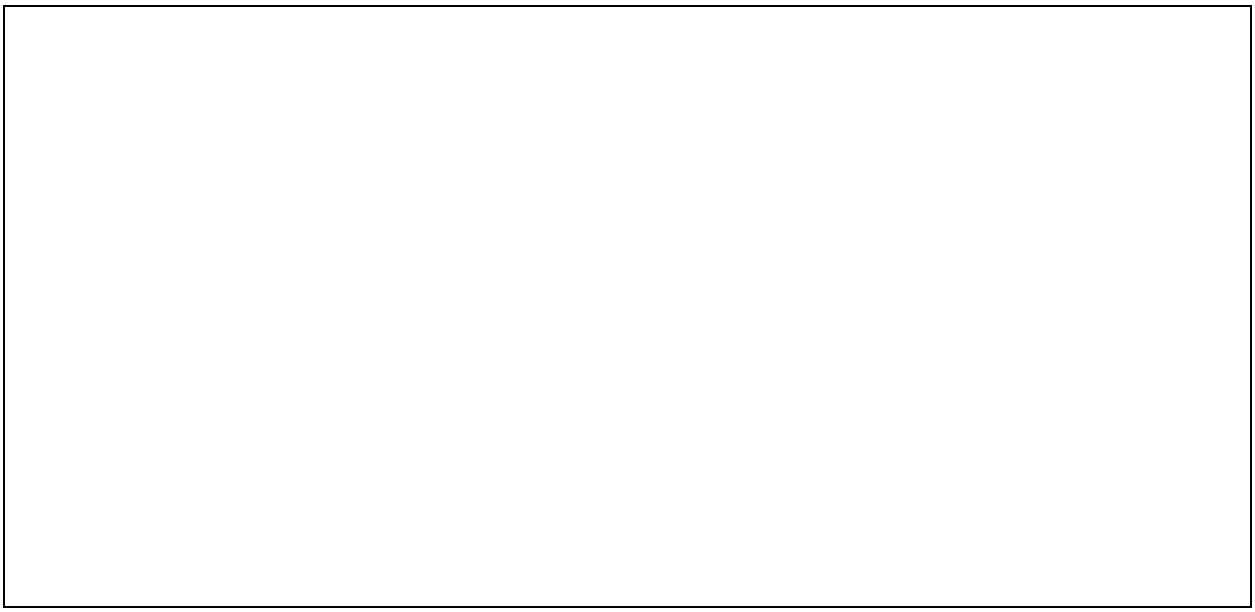
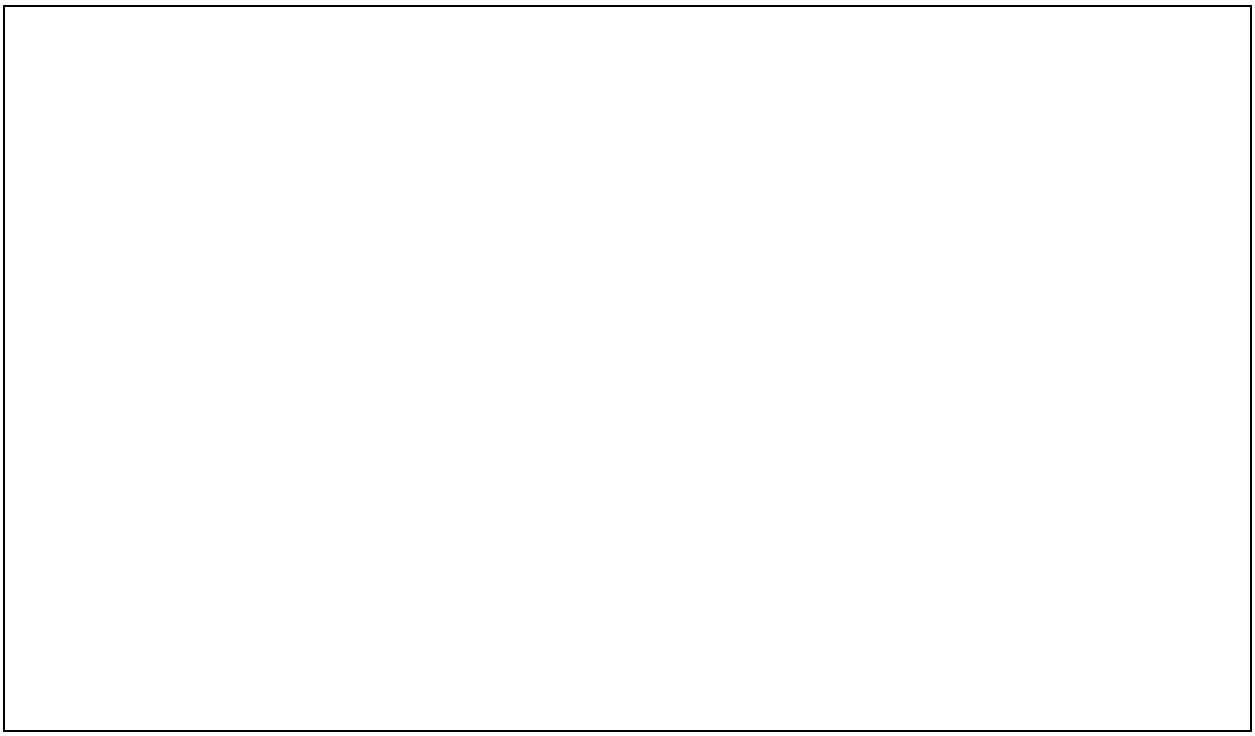
The “Advanced” tab offers additional options for your learning screen. If you wish to add a background image, click on the “Select” link in the “Background Image” field. A listing of background images will appear 15 a folder,and a preview of the images will scroll at the bottom of the screen when clicked upon. Double click on the image to select and add it to your learning screen, and choose whether you want it to repeat on the page.

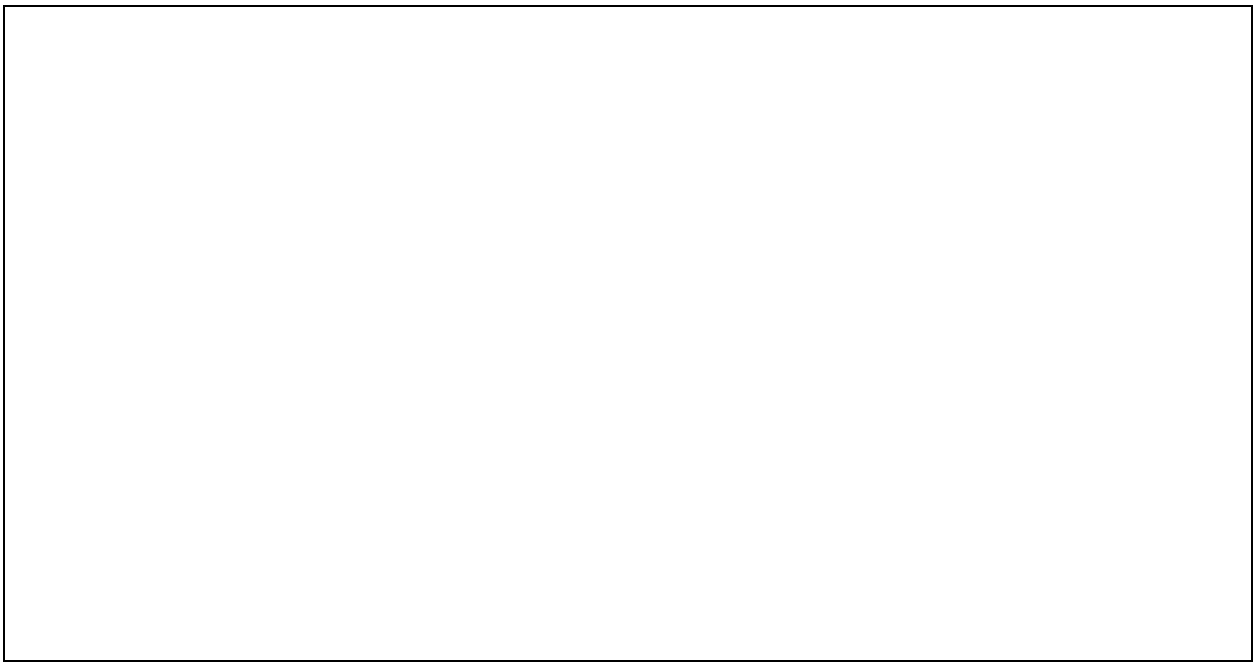
There are two learning screen Navigation options:



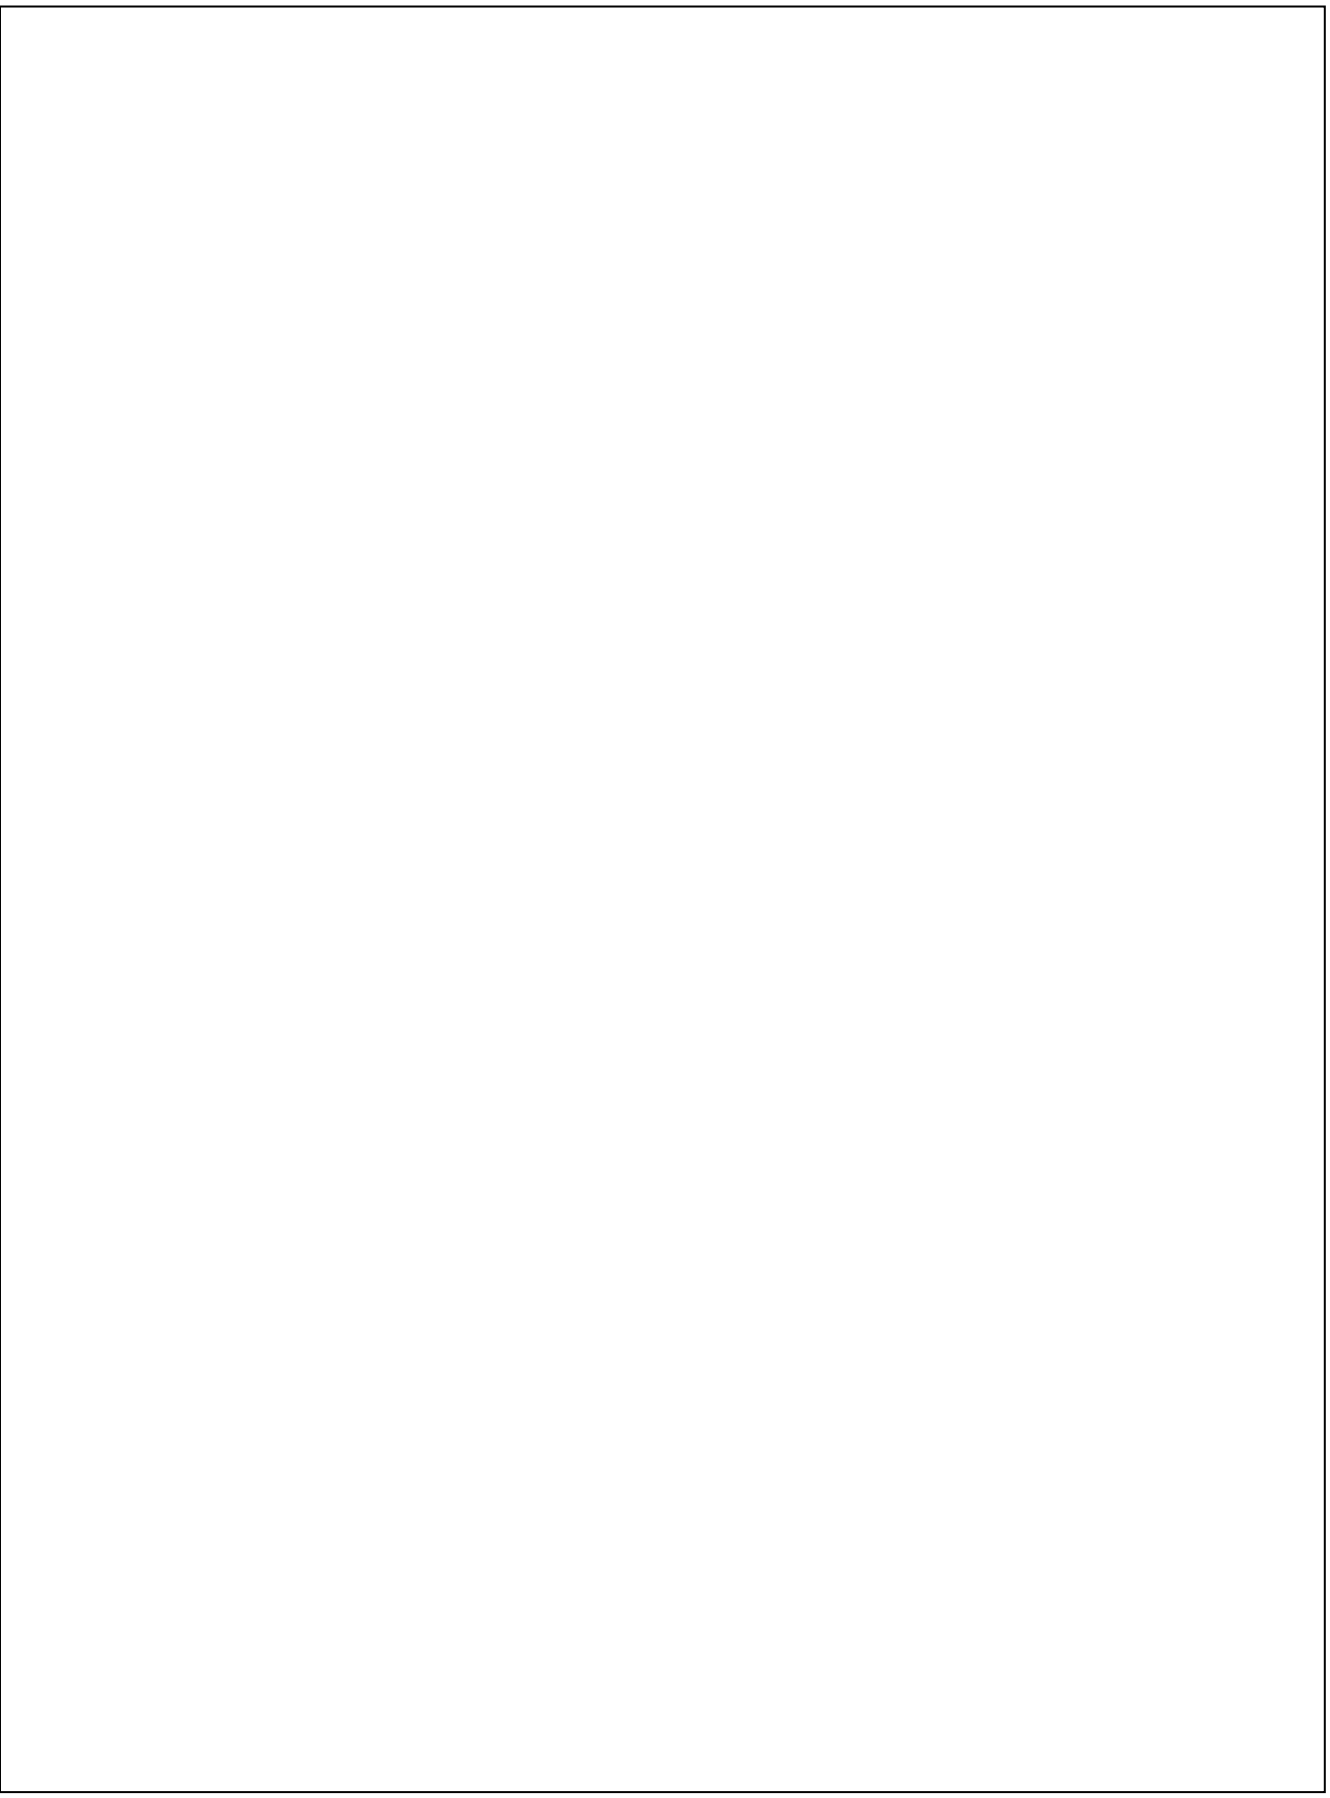
The optional “Extras” tab provides enhancement options for learning screens. To add audio to a learning screen, choose a narration or audio from the “Audio Track” drop down box. The audio files are maintained in the Media Library.

YouTube videos can be added to your learning content and embedded in the learning screen. In the “YouTube Video” open field, paste the embed tag from the YouTube video. Once you have selected the audio track and/or added the YouTube video, click on the “Add” button to add these features to the learning screen.





The “Extras” tab offers configuration settings for your learning screen Avatar. You can choose your Avatar, enter a script, select a voice, choose a language and set the size of the animation that will display. The Avatar will sa



If you wish to add an image, click on the “Select” link in the “Display Image” field. A listing of image folders will appear, and a preview of the images will scroll at the bottom of the screen when clicked upon. Double click on the image to select and add it to your test question. Instead of an image, you can select a movie or video from the drop down box.

Enter the series of questions in the open

Fill-In-The-Blank
In the “Question” field, type in the test question.

If you wish to add an image, click on the “Select” link in the “Display Image” field. A listing of image folders will appear, and a preview of the images will scroll at the bottom of the screen when clicked upon. Double click on the image to select and add it to your test question. Instead of an image, you can select a movie or video from the drop down box.

In the “Valid Answer(s)” field, type in the answer. Since this is a fill-in-the-blank

Scheduling options are arranged into related groups under each folder-style tab at the top of the screen. Make selections, save your changes anr use the tabs to move between option groups as needed.

Use the following options in the Schedule Course section to setup anr schedule a course:

Basic Tab

Course Enabled/Disabled?
When a new course is created, it is automatically “scheduled” in the system. However, the status is “Not Scheduled/Disabled.” Once you finish building your course, list, sections,

Certificates

The optional Certificates function allows you to define, create and modify course completion Certificates that students or system administrators can download and print once all course sections, assignments and tests are completed.

The Certificate section allows you to choose from three integrated template styles, choose the font, create text, load a com
